Nethmi Dias Software Engineer

+94 764744082 | nethmiydias@gmail.com | LinkedIn | Github

Colombo, Sri Lanka

Professional Summary

Enthusiastic and results-driven Software Engineering Intern with hands-on experience in building web and mobile applications using modern technologies such as **React, Node.js, Spring Boot, PHP, Java, and Android Studio**. Skilled in developing scalable frontends, REST APIs, databases, cloud integration, and UI/UX and microservices while managing MySQL-based databases. Demonstrated ability to solve problems, collaborate in teams, manage tasks, and deliver clean, scalable software solutions. Quick learner with a strong passion for applying technical and analytical skills to real-world projects.

Skills

Programming Languages: Python, Java, C++, JavaScript, HTML, SQL, JavaScript, PHP, CSS, jQuery

Web Technologies: Angular, React, Node.js, Spring Boot, REST APIs, Microservices

Mobile Technologies: Basic React Native, Android Studio (Java)

Databases: MySQL, Firebase, MongoDB, SQLite

Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Figma

Soft Skills: Problem Solving, Teamwork, Time Management, Communication, Critical Thinking

Education

School of Computing, National Institute of Business Management *Nov 2023 – Present*

BSc (Hons) in Software Engineering

Currently in 2nd Year – Higher National Diploma

Princess of Wales' College, Moratuwa

G.C.E. Advanced Level – 2022

G.C.E. Ordinary Level – 2019

Projects

Car Booking System — Microservices Architecture

Spring Boot | React.js | Node.js API Gateway | MySQL | REST APIs | Microservices

- Built a microservices-based car booking platform managing users, cars, bookings, and payments.
- Implemented REST APIs and service-to-service communication.
- Managed separate MySQL databases for secure data handling.
- Built a responsive React frontend integrated through a Node.js API Gateway.

Sweet Cake — eCommerce Website

HTML | CSS | JavaScript | jQuery | PHP | MySQL

- Developed a responsive bakery eCommerce website with product listings and secure user login.
- Implemented a dynamic shopping cart with full CRUD functionality.
- Built an admin dashboard for product and order management.
- Designed a clean, mobile-friendly user interface.

Library Management System
Java | MySQL | .NET | Jasper Reports

- Created a desktop-based system to manage books, students, issuance, and returns with full CRUD operations.
- Integrated Jasper Reports for generating book and student reports with filtering options.
- Designed a user-friendly Java Swing GUI to streamline all library processes.

Personal Finance Management System - Data Management
SQLite | Oracle Database | PL/SQL | SQL | PHP |HTML| CSS

- Developed a finance management system using SQLite and Oracle Database.
- Designed database structures with constraints, foreign keys, and triggers.
- Implemented PL/SQL stored procedures for financial data processing.
- Enabled data synchronization between SQLite and Oracle databases.

Pizza Mania — Android Mobile Application
Android Studio (Java) | SQLite | Maps API | Firebase | REST APIs

- Developed an Android app for a restaurant with menu browsing and online ordering features.
- Implemented user accounts, order placement, and order tracking.
- Integrated Maps API, Firebase, and SQLite for location services and data management.

Interests

Frontend Development
Backend Development
Mobile Application Development
Full Stack Development
UI/UX Designing Development
Web Development
AI/ML Development

Courses

AI Foundations Associate | Oracle

Data Platform Foundations Associate | Oracle

Introduction to C | Sololearn

AI/ML Engineer – Stage 1 | SLIIT Faculty of Computing

AI/ML Engineer – Stage 2 | SLIIT Faculty of Computing

Web Design for Beginners | University of Moratuwa

Python for Beginners | University of Moratuwa

Python Programming | University of Moratuwa
